“Expert Lecture”

Conducted by Electrical Faculties GMFDE

SUBJECT:-

ELECTRICAL POWER GENERATION ENGINEERING

&

INDIAN POWER SECTORE OVERVIEW

Prof. B.D. Suthar Sir is an electrical engineer and working in GMFE/GMFDE. He has given fundamental technical knowledge of electrical engineering and presented the process of generation of electricity from power station to the utility and emphasized on the challenges faced by an electrical engineers had also motivated our students. He explained tasks of an electrical engineer in various industries especially for in the electrical industries. The expert lecture was very fundamental, innovative, understandable and specially focused on the role of electrical engineer in industries.
This seminar on Electrical Power Engineering by B.D.SUTHAR for Diploma 2\textsuperscript{nd}, 4\textsuperscript{th} & 6\textsuperscript{th} Sem Electrical Student was a delight. Organized on the 12\textsuperscript{th} Feb. 2014 at the SEMINAR HALL, the response was worth acknowledging.
The Final and Closing function of this “Expert Lecture” was conducted on 12/02/2014, which was full of knowledge & motivation.

The Program came to a successful end with students from different sem. of electrical department making friends with each other. An interview with some of the students revealed that they would want to see and be part of these types of events.

Prof. Bharat D Suthar (I/C Principal of G.M.F.D.E.)
Prof. Suhas H. Chaudhari (Coordinator Seminar)
Prof. Arpit R. Joshi
Prof. Ramesh J. Prajapati
Prof. Arif Memon
Prof. M.S. Vijapura
